### **CropEnergies AG**

Ensuring mobility in a climate friendly way - today and in the future - is CropEnergies' business. Founded in Mannheim, Germany, in 2006, the young and dynamically growing member of the Südzucker Group is one of the leading European manufacturers of sustainably produced bioethanol for the fuel sector today. With its production capacities of 1.2 million cubic meters of bioethanol per year, CropEnergies produces bioethanol which predominantly replaces petrol in four modern production facilities in Germany, Belgium, the UK, and France. The highly efficient production facilities reduce CO<sub>2</sub> emissions by up to 70 percent across the whole value-added chain compared to fossil fuel. With the production sites, the unique logistics network in Europe as well as trading offices in the USA and Brazil, CropEnergies is one of the leading companies in a major emerging market. At the same time, CropEnergies is an important producer of food and animal feed products. The raw materials which are used such as cereals and sugar beets are completely utilized. As a result, more than 1 million tonnes of high-quality protein food and animal feed products are manufactured every year out of the non-fermentable components of the raw materials.

Through advanced technology and innovation CropEnergies contributes to ensure a sustainable mobility from renewable sources today and in the future through its main product bioethanol: mobility - sustainable. renewable.

The CropEnergies AG stock (ISIN DE000AOLAUP1) has been listed at the regulated market (Prime Standard) at the Frankfurt Stock Exchange since 2006.
